

JAN DOUGLASS

An accredited Instructor with Vodder Schools International, experienced lymphoedema therapist, researcher and perpetual student, Jan fell in love with lymph taping when she used it to successfully treat her own breast lymphoedema.

"When I find a technique that really works, I feel compelled to share it!"

The course in Perth will be Jan's final step to accreditation as a Lymph taping Instructor with Medical Taping Concept and FysioTape (Netherlands)

Certificate Course in Lymph Taping

Comments from past participants:

"...a two day course and I could not expect that any more information could have been included within this time frame."

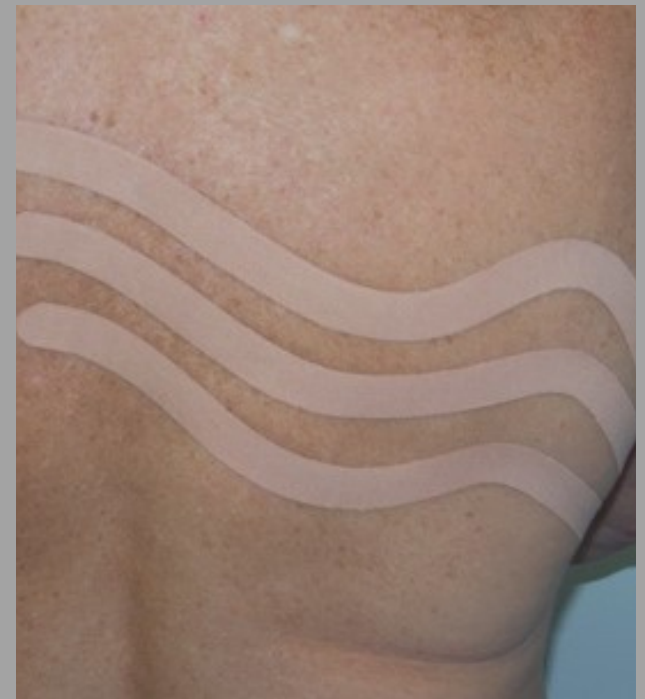

"Jan was my instructor for my Vodder qualification and she is a fantastic teacher. Very knowledgeable and I like the way she is very specific so does not get distracted off topic. Great job! "

"Jan was able to correct me on fine details which will help hone my skill set"

" Good insights on how to modify techniques for different clinical situations"

"After breast surgery in July I had a persistent build up of fluid and my breast becomes quite firm at the end of the day. I have had laser and regular lymph drainage but after being taped by Joyce in the course I reduced a cup size overnight."

(Mim Gunn, Lymphoedema Therapist)

Evidence for the effectiveness of lymph taping is growing. This course will showcase recent publications on taping for seroma, breast oedema and the use of lymph taping as an alternative to compression.

The two day hands on course provides training in the most up to date applications of lymph taping.

You will learn the correct and skillful application of Cure Tape and how it can be used for all lymphatic indications.
